

BRAND IDENTITY **STANDARDS**

What is North Memorial Health's Brand?

Our brand is a unifying force that aligns our work and passion around one universal story. It sets expectations for our organization, team members, patients and the community.

Externally, our brand is the face we present to the world— a symbol of trust, integrity, and reliability. It signifies our promise to listen to the needs of our patients, to foster meaningful connections, and to act with empathy and expertise.

Internally, our brand helps us work together as one. When we understand who we are, we create a distinct culture to recruit and retain the best people in an already competitive healthcare marketplace.

This living document outlines the principles, visual elements, and communication guidelines that define our brand. It's designed to be updated regularly to ensure our brand is always evolving, yet consistent.

Leadership:
**Let's do the
"little things"
better**

Hospitals/clinics:
**From the team
to the signage**

Visual ID:
**Friendlier
name, you can
call us "North"**

LOGOS

2 LOGOS

Logo Introduction and Rules

North Memorial Health's logo guidelines were created to ensure protection and consistent application of North brand logo assets. Complying with our masterbrand structure helps build brand recognition and equity in all of our hospitals, facilities, departments and service lines. In short, it helps establish a singular North Memorial Health brand across all of our locations and programs regardless of their individual functions, strengthening our role as a leading provider of healthcare throughout the communities we serve.

All uses of the North Memorial Health logo must adhere to the standards outlined in the following pages. Our logo is a distinctive mark and should not be used with other logos unless prior approval is granted from the Marketing Department at North Memorial Health. This includes, but is not limited to, North Memorial Health documents/forms, print materials, wearables or any other property of North Memorial Health.

For additional information or requests, please contact the Marketing Department.

2 BRAND FAMILY

Masterbrand Logo

The system logo is the preferred brand mark for all materials.

Sub-brand Logos

Sub-brand logos are preferred when identifying a specific location (see page 13 for reference) or service.

Logos available upon request. Contact Marketing to request logos. Do not copy and paste from this document.

VERTICAL LOCK-UPS

HORIZONTAL LOCK-UPS

Special Use-case Logos

These logos are considered special use-case logos and require approval from the Marketing Department.

Logos available upon request. Contact Marketing to request logos. Do not copy and paste from this document.

SECONDARY SUB-BRAND VERTICAL

SECONDARY SUB-BRAND HORIZONTAL

CONDENSED SUB-BRAND VERTICAL

CONDENSED SUB-BRAND VERTICAL

2 MASTERBRAND LOGO

Masterbrand Logo

North Memorial Health uses a masterbrand logo to consistently and notably represent our organization.

Our masterbrand logo consists of the capital “N” and the words North Memorial Health. The iconic capital “N” is our recognizable symbol for North Memorial Health. It was designed to feel progressive and modern, just like our brand. It’s bold design is intended to help us stand out. And the color blocks comprising the capital “N” represent our wide variety of services, patients and system elements.

The full-color, masterbrand logo should be used on all external-facing corporate materials such as business identity collateral, advertising, marketing communication materials and high visibility locations like buildings or facilities and signage.

REVERSE, GRAY-SCALE AND BLACK LOGO USAGE.

In some instances, use of the full color logo may not be possible or economical. Logo files are available to meet those needs.

Reversed/white logo with colored “N” to be used on high-contrast colors or background only

Solid reversed/white logo to be used on high-contrast colors or background only

Logo in North gray

100% black logo

2 SUB-BRAND LOGOS

Our sub-brand logos are best applied in instances where locations or services cannot be clearly identified in copy (ie. signage).

An example of this logo lockup for Maple Grove Hospital is shown on the right. Additional location and service specific logos can be found for:

- Ambulance Services
- Clinic
- Foundation
- Robbinsdale Hospital
- Urgency Center
- Urgent Care

RULES FOR USE

These sub-branding examples include locked logo placement, with North Memorial Health logo on the left/top and the location or service on the right/bottom. This lock-up never varies.

Preferred Minimum Sizes - The “N” mark must never be smaller than .25in.

Secondary Minimum Sizes - The “N” mark must never be smaller than .5in. and “Memorial Health” must remain legible.

All dividing lines should be gray, with the exception of Urgent Care and Urgency Center, which should be red.

VERTICAL LOCK-UP

HORIZONTAL LOCK-UP

2 SUB-BRAND LOGOS

Sub-brand Logo Family

Logos are for reference only and are not scaled to proper size.

VERTICAL LOCK-UPS

HORIZONTAL LOCK-UPS

2 SPECIAL USE-CASE LOGOS

RULES FOR USE

These logos are considered special use-case logos and require approval from the Marketing Department.

VERTICAL LOCK-UP CAPITAL "N"

Must be used in large enough executions that "Memorial Health"

STAND-ALONE CAPITAL "N"

The capital "N" alone may only be used when the primary logo is used elsewhere on the piece. Approved on a case-by-case basis. For example, on signage.

SECONDARY SUB-

CONDENSED SUB-BRAND

2 LOGO INTEGRITY

Clear space

To maintain the integrity of the North Memorial Health logo, a minimum amount of clear space has been established. This is determined by the width of two of the “rectangles” in the “N” as shown. No other element (such as text or images) should appear within the clear space. When you are placing the logo in a layout, keep in mind that the clear space will proportionally increase or decrease depending on the size of the logo.

When placing the logo over an image, ensure there is enough contrast for the mark to stand out and be clearly legible.

Minimum sizes

The minimum size is determined by how the “N” mark will be used. Try to maintain .25 inch increments when sizing. Optimum clarity must be maintained.

PRINT

2 LOGO INTEGRITY

Spacing for Sub-brand Logos

The Location Identifier below the corporate mark may be wrapped to two lines if the full first line of text is greater than 11 characters with spaces. (ie. the number of characters in Maple Grove.)

Font size of the location identifier line is consistent across single and wrapped versions.

Location identifier text size is dictated by the spacing between elements.

The Location Identifier to the right the corporate mark may be wrapped to two lines if the full first line text is greater than 11 characters with spaces. (ie. the number of characters in Maple Grove.)

Wrapped location identifiers may not take up more vertical space than the corporate mark to the left.

Font size of the location identifier line is consistent across single and wrapped versions.

For single line location identifiers, vertically center the line against the corporate mark to the left.

2 LOGO INTEGRITY

Incorrect Logo Usage

DO NOT stretch, squeeze or change the orientation of the logo. Hold the “shift” key down when scaling logos to maintain the proper proportions of the logo file.

DO NOT change the colors of the logo, specifically the “N” in the logo.

DO NOT place the logo on a color that decreases legibility, unless approved by the Marketing Department.

DO NOT USE: The logo can be 4-color, all-black, all-white, or all-gray. Other all-color logos are not allowed.

DO NOT place the logo on top of a photograph unless the logo is clearly visible and does not get overpowered by the background image.

In some cases, using a different color variation of the logo or choosing a different photo may be necessary.

COLOR

3 COLOR

Primary palette

Our color palette is part of the foundation of our visual language. When we use our colors consistently and properly, we protect and strengthen our brand.

Pantone (PMS) and four-color process (CMYK) color formulas have been provided to aid in creating printed materials.

RGB and HEX values have been provided for screen specific applications (Web site, PowerPoint® presentations, slides, etc.).

Please use this palette whenever creating anything for North Memorial Health to ensure accurate brand color representation.

PMS 3262 CMYK 88/0/40/0 RGB 0/176/173 HEX 00b0ad	PMS 1665 CMYK 6/87/100/0 RGB 224/71/38 HEX e04726	PMS 7540 CMYK 68/59/53/33 RGB 75/79/84 HEX 4b4f54	PMS 1235 CMYK 0/32/94/0 RGB 255/184/38 HEX fcb526
75%	75%	75%	75%
50%	50%	50%	50%
25%	35%	25%	35%

3 COLOR

FOR MARKETING USE ONLY.

Secondary palette

Our secondary colors complement our primary colors adding depth and versatility to our brand palette. These colors can be used to create a wider range of visual expressions, while still maintaining a cohesive and recognizable brand identity.

Possible uses include (but are not limited to) design elements or colors for charts or graphs.

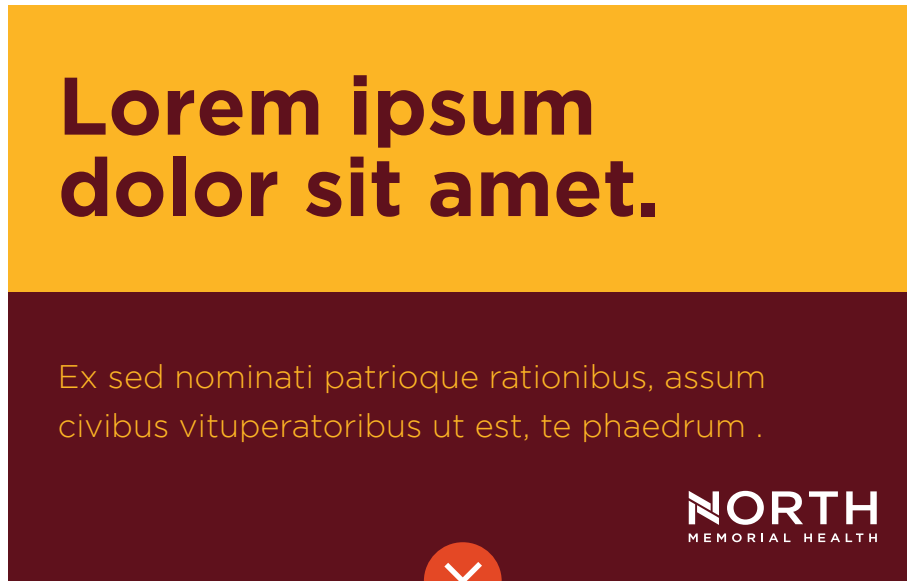

RULES FOR USE

- Secondary colors cannot be used alone or with other primaries; they must be paired with their corresponding primary color.
- When using secondary colors, ensure they maintain the overall look and feel of the brand as established by the primary palette.
- Secondary colors should not overpower primary colors but serve as a complementary element (less than 50% of the total piece).
- Secondary colors may be used for text and headlines when paired with primary colors.
- Secondary colors are also recommended for background patterns and design elements, like illustrations and icons.

PMS 3262 CMYK 88/0/40/0 RGB 0/176/173 HEX 00b0ad	PMS 1665 CMYK 6/87/100/0 RGB 224/71/38 HEX e04726	PMS 1235 CMYK 0/32/94/0 RGB 255/184/38 HEX fcb526	PMS 7540 CMYK 68/59/53/33 RGB 75/79/84 HEX 4b4f54
PMS 548 C CMYK 93/60/59/52 RGB 0/6/61 HEX 00383d	PMS 490 C CMYK 36/94/78/54 RGB 95/21/29 HEX 60151E	PMS 1535 C CMYK 32/85/100/41 RGB 118/45/16 HEX 762d10	PMS Cool Gray 3 C CMYK 15/11/12/0 RGB 214/214/214 HEX D6D6D6

3 COLOR

Incorrect Color Usage for Secondary Palette

DO NOT use secondaries alone or with other primaries; they must be paired with their corresponding primary color.

DO NOT apply the secondary color to more than 50% of the total piece.

3 COLOR

Correct Color Usage for Secondary Palette

DO pair with the correct corresponding primary color while ensuring they maintain the overall look and feel of the brand as established by the primary palette.

DO allow the secondaries to serve as a complementary element and not overpower (less than 50% of the total piece).

3 ACCESSIBILITY

Accessibility Guidelines

Per system policy, the North Memorial Health website aims to meet [WCAG 2.1 AA guidelines](#). This includes a required contrast ratio for text and images of text of at least 4.5:1. This applies to live (HTML) text and image text (such as text in banners, images, or graphics).

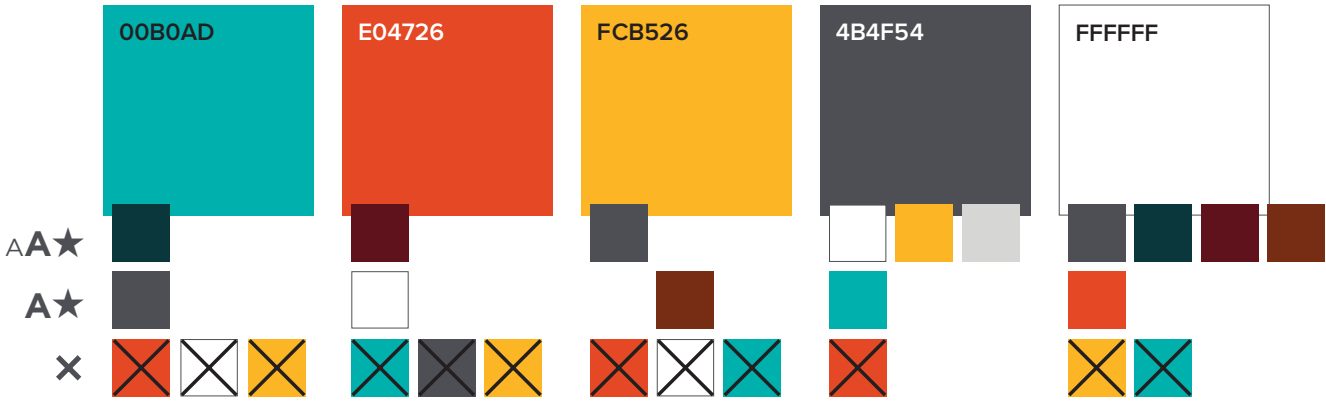

Text and background color combinations from the North Memorial Health color palette that meet this contrast ratio are presented on this page and the next. If you still have questions, refer to [WebAim's](#) color contrast checker.

What is large text? This.

When using the North Memorial Health templates, any text that is wrapped in the HTML headline tags <h1>, <h2>, <h3>, or <h4> qualifies as large text.

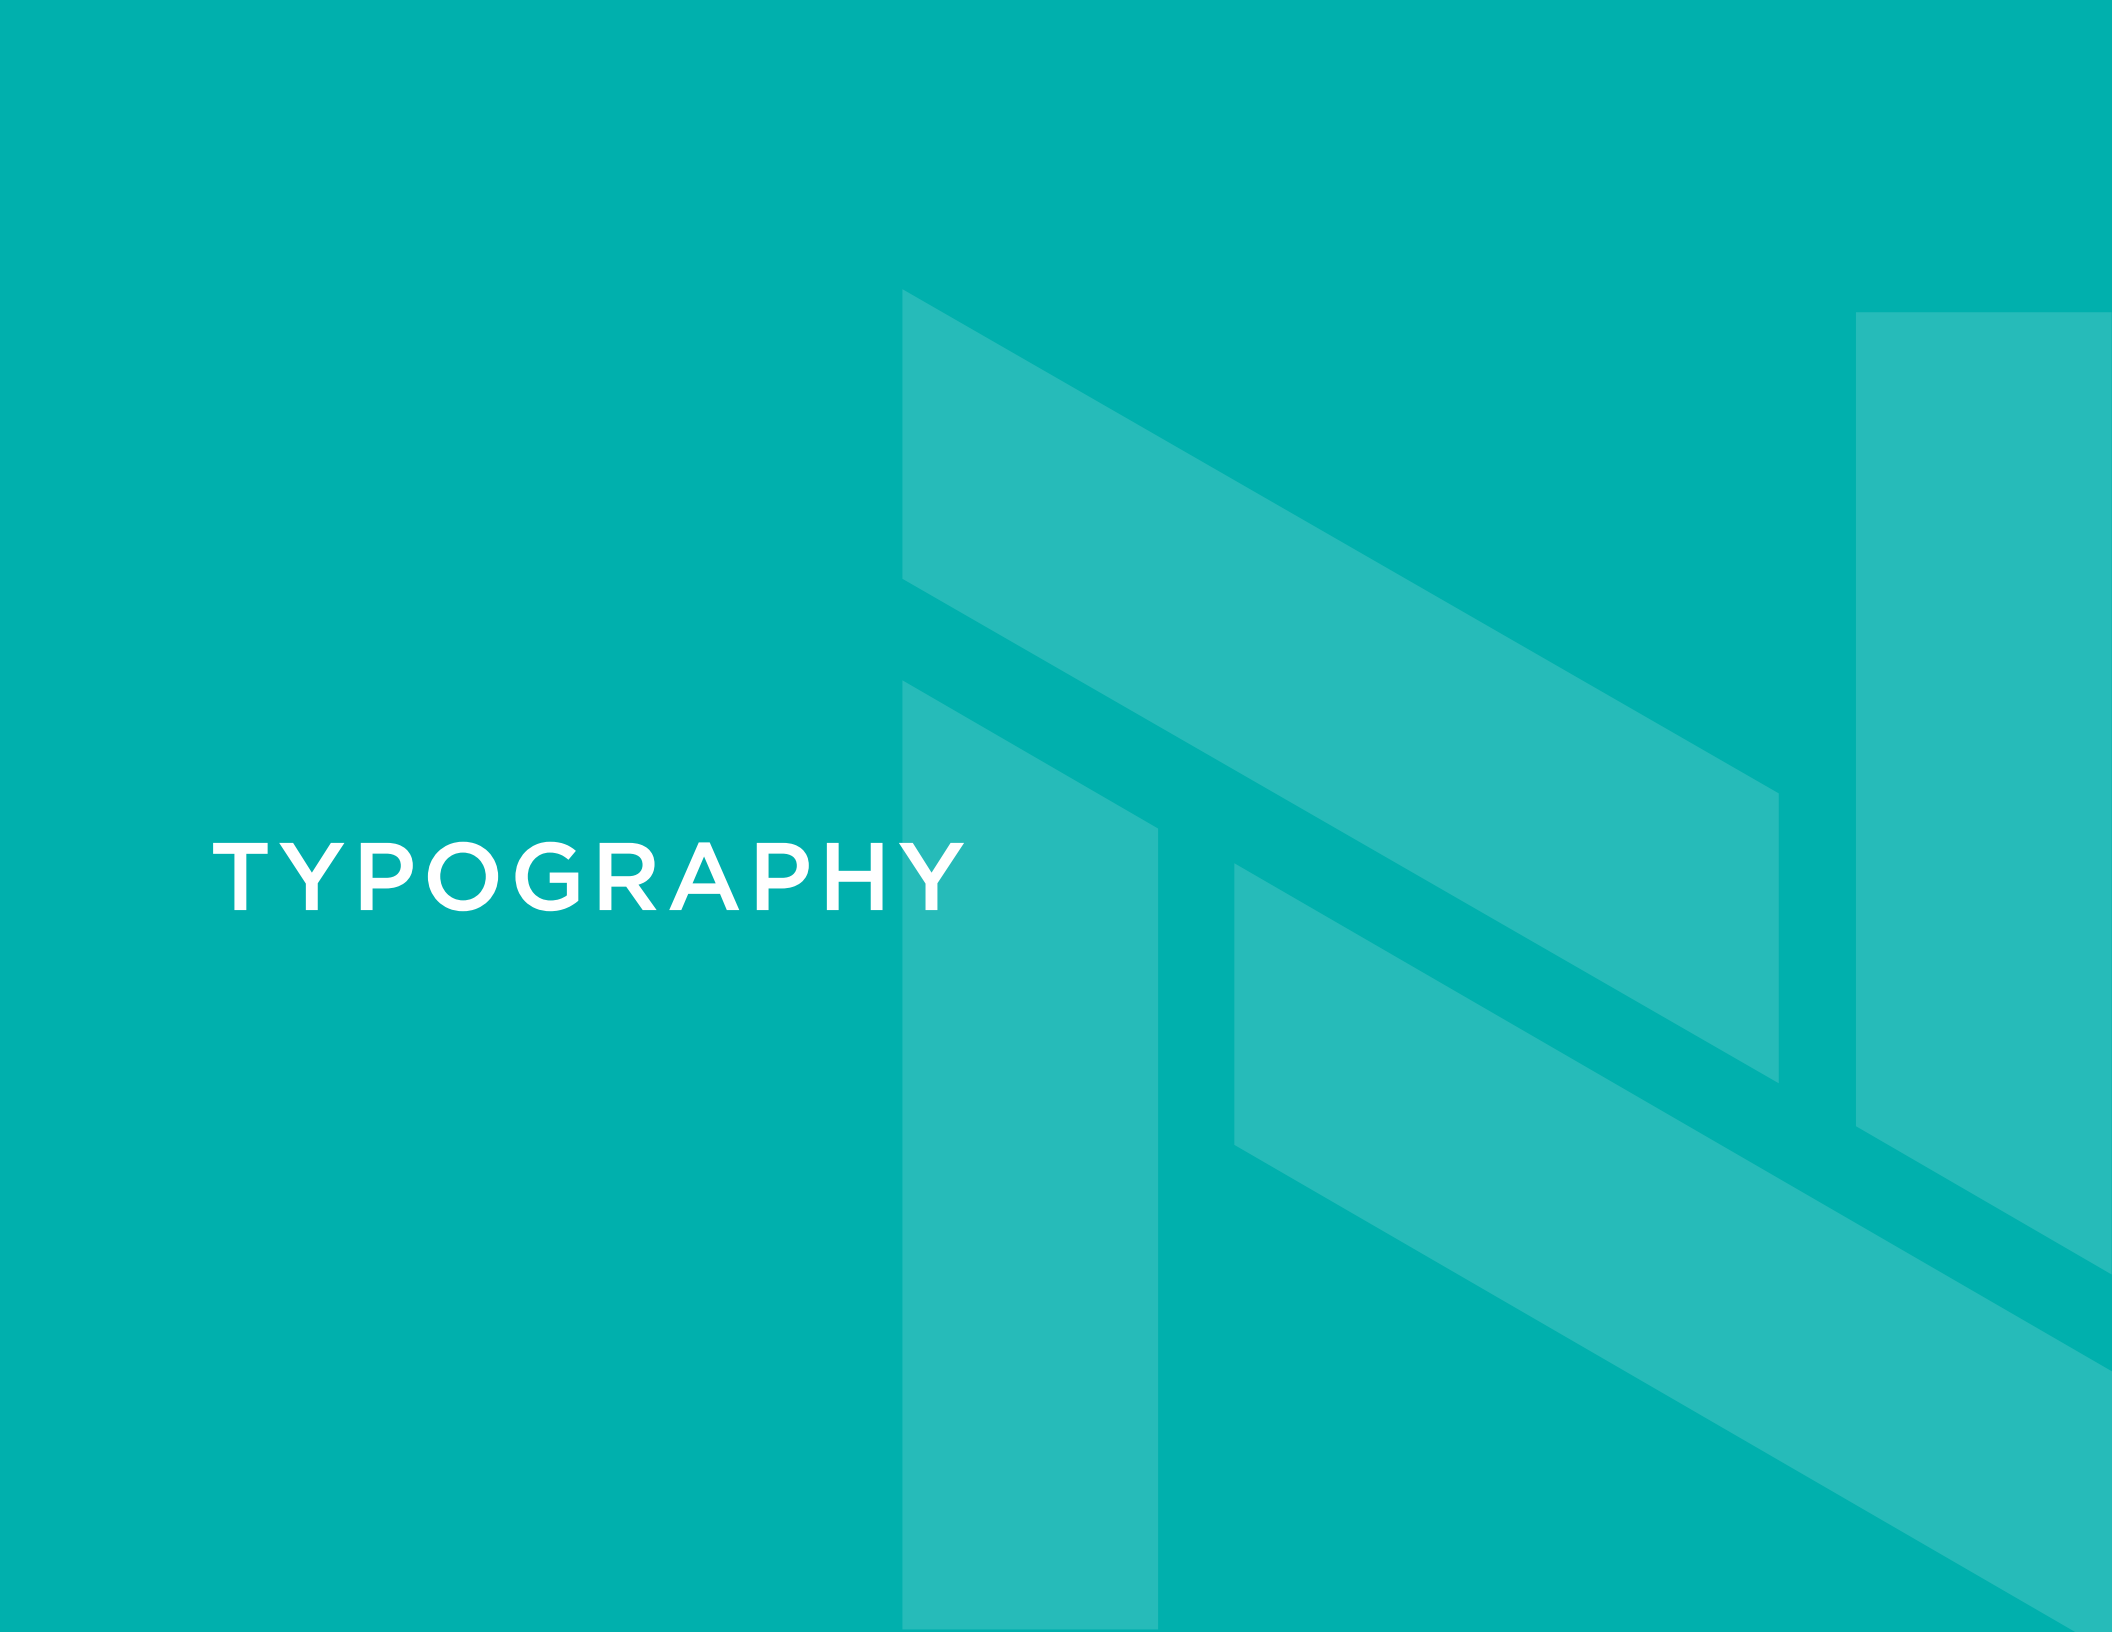

Standard paragraph text, like this, does not qualify as large text, even if it is bold.

For more technical details about what qualifies as large text, consult the [WCAG 2.0 definition of large scale text](#).

CONTRAST KEY

ACCEPTABLE FOR...

X	None	

The background features a solid teal color with several overlapping, semi-transparent light blue geometric shapes. These shapes include rectangles and parallelograms, some of which are tilted at various angles, creating a layered, architectural effect. The word 'TYPOGRAPHY' is centered horizontally and partially overlaps these shapes.

TYPOGRAPHY

4 TYPEFACE

Font usage

To reinforce the North Memorial Health identity system, a set of standard typefaces has been selected.

The Gotham family is the chosen brand typeface and is to be used for headlines, sub-heads, call-outs and body copy.

Secondary font usage

For digital communications, such as email, Microsoft Office documents, or circumstances where the Gotham font family is not available, please use the Arial font family as the preferred substitute.

Arial (Regular)

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890!@#%^&*()“

4 TYPEFACE

FOR MARKETING USE ONLY.

Accent Font

RULES FOR USE

Overarching Rule: North Memorial Health’s accent font, Carena, is intended to add personality, highlight specific content, and create visual hierarchy. However, it’s essential to ensure Carena complements our primary typeface without overwhelming it.

- 1. Carena should work in harmony with our primary brand font and should only be used to emphasize copy such as headings, sub-headings, or special callouts.
- 2. Carena should not be overused and should only be seen in one statement on the respective placement; this statement **should not be more than 5 words in length.**
- 3. Use Carena in large-point text due to it being a serif font that can become cluttered if used in a small format.
- 4. Be mindful of letters that may connect in a word due to the nature of Carena’s lettering - if necessary, consult with the Marketing Manager to determine if connected letters stand out in design.

ACCENT TYPEFACE

Friendly,
knowledgeable,
neighborhood,
healthcare.

DESIGN ELEMENTS

5 DESIGN ELEMENTS

Visual Use Cases

Our visuals should feel bright and lively, just like our brand. We've created standards to help keep visuals aligned in four commonly used mediums: Photography, Videography, Graphics and Iconography.

Photography: Photography follows the warm, human feel of our overall brand and should be used in all materials whenever possible.

Videography: Videography enables us to put warm humanity in motion. Use it wherever channels allow like YouTube, social channels, connected TV, linear TV and occasionally, digital banners.

Graphics: Graphic elements, especially those used as backgrounds, create depth and contrast, allowing key content to stand out.

Iconography: Icons quickly communicate features, functionality or content.

5 PHOTOGRAPHY

Photography is an opportunity to differentiate our overall brand with authenticity and humanity. We have opportunities to use both lifestyle and portraiture imagery to convey the appropriate visual message. Here are some helpful tips for using each style.

TECHNICAL GUIDELINES

- Take photos with high resolution — photos must be at a resolution of 300 dpi (2700 x 3600 pixels)
- Use one of the following formats: high resolution JPEG files (.jpg), TIFF (.tiff) files or RAW (.CR3)
- Shoot photos in color and use 24-bit or higher color depth
- Do not crop the in-camera image too tight. Shoot so the photograph can be cropped later with a wide view or a tight focus

STOCK PHOTOGRAPHY

In the event photography is essential but the correct image can't be found in our library, consult with the Marketing Department. They'll handle sourcing and approving all stock photography needs.

5 PHOTOGRAPHY

Lifestyle

Our lifestyle photography captures candid and relatable scenarios in realistic, lived-in environments. Stylistically, we combine elements of authenticity, emotional range, beauty and thoughtfulness. Overall coloring leans into orange hues. When possible, we shoot from less expected angles proving a fresh look at humanity in nearly every way. We also aim to be inclusive of age, race, sexual orientation, body type, gender and abilities.

DOs

- Choose diverse individuals with charisma, unique characteristics, and confidence
- Capture genuine expressions and spontaneous interactions that exude optimism and confidence
- Use images with warm, natural lighting to convey optimism and realism

DON'Ts

- No direct eye contact with the camera
- No harsh, color-saturated backgrounds
- No garish or busy backgrounds
- No distracting wardrobe patterns or graphics

5 PHOTOGRAPHY

Portraiture

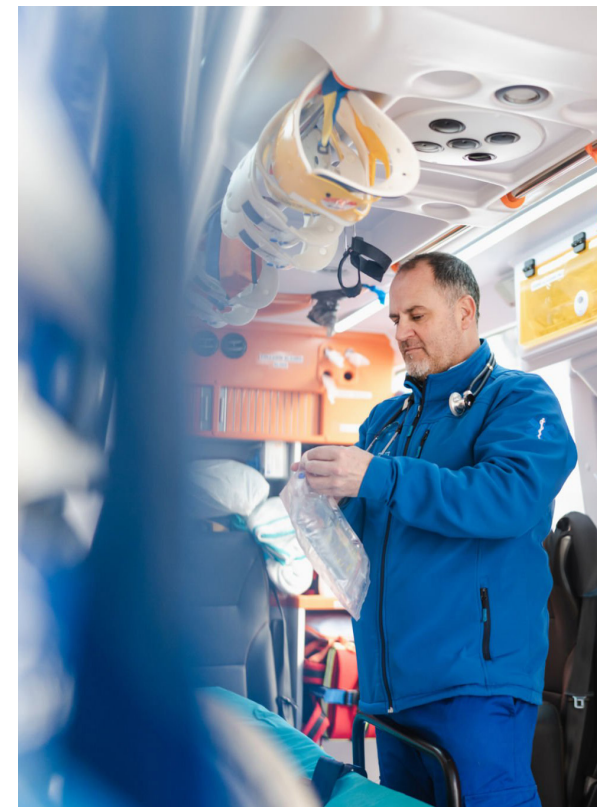

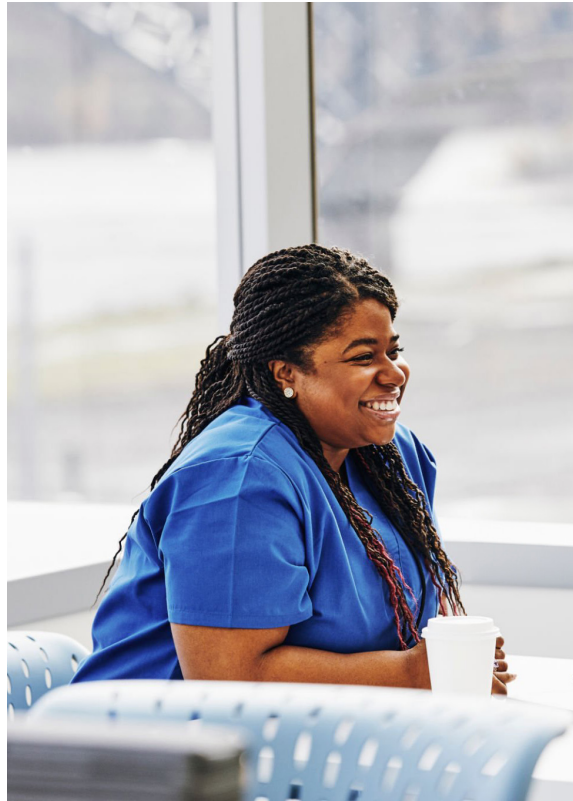

We're proud of our people and show it in marketing materials. While there are times to highlight them in the midst of a real-world task, sometimes we feature portraits to simply showcase their authentic selves.

DOs

- Ensure subjects are wearing real work attire with ID tags visible
- Show individuals in their work environment
- Capture genuine expressions that exude optimism and confidence
- Use warm, natural lighting when possible
- Use a short depth of field to keep the focus on the subject

DON'Ts

- No harsh, color-saturated backgrounds
- No garish or busy backgrounds
- No unnecessary photography tools like extreme angles, long exposure, and fisheye lenses
- No distracting wardrobe patterns or graphics

5 VIDEOGRAPHY

As with photography, videography is an opportunity to tell an honest visual story that aligns with the North Memorial Health brand. Our approach to video is highlighted by warm colors and natural lighting, whenever possible. We aim for authentic emotion and relatable performances from all subjects.

STYLE

- Use short depth-of-field to focus on the subject
- Utilize natural, directional light whenever possible
- When capturing interviews, allow for design elements such as lower-thirds
- Attire should be appropriate for the subject matter

TECHNICAL STANDARDS

- Recommended aspect ratio = 16:9 shot wide enough to allow main subject matter to be cropped to square (1:1) and vertical (9:16) videos
- Preferred formats for YouTube: Quicktime ProRes 422 HQ or Quicktime H.264 / MP4
- 4K or High Definition (HD) resolution at either 3840x2160 or 1920x1080

LOWER-THIRDS

- Keep text within the title safe area
- When using the logo, text should be placed on the right side and logo should be have a 200px height

COPYRIGHT

Videos must be free of any copyrighted music, talent or visual imagery unless permission is granted or copyright does not apply due to fair use.

5 GRAPHICS

Capital “N” watermark

The capital “N” watermark may be utilized as a visual accent or watermark. It should always bleed off the bottom and right edges of the page (or panel) that it appears on.

There are five choices for utilizing the watermark:

- Gray mark on a white background
- White mark on North gray
- White mark on North orange
- White mark on North teal
- White mark on North yellow

This watermark is best used with blocks of copy on the left to avoid legibility issues.

GRAY MARK ON WHITE

Transparency: 7%

WHITE MARK ON GRAY

Transparency: 10-25%, depending on legibility

WHITE MARK ON ORANGE

Transparency: 10-25%, depending on legibility

WHITE MARK ON TEAL

Transparency: 15-30%, depending on legibility

WHITE MARK ON YELLOW

Transparency: 10-25%, depending on legibility

5 GRAPHICS

Capital “N” watermark full bleed

The capital “N” watermark may be utilized as a visual accent or watermark. It should always bleed off all four edges of the page (or panel) that it appears on.

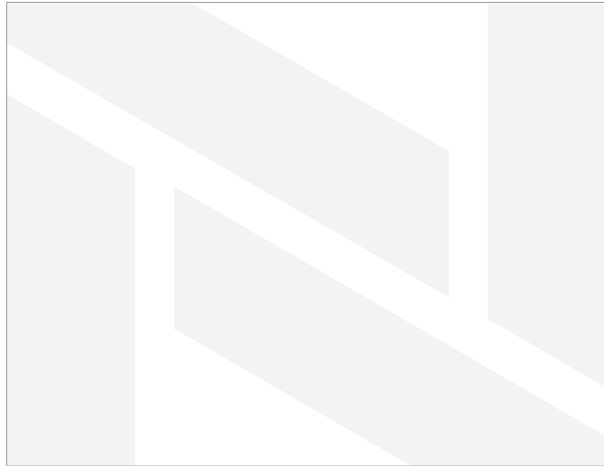

There are five choices for utilizing the watermark:

- Gray mark on a white background
- White mark on North gray
- White mark on North orange
- White mark on North teal
- White mark on North yellow

This watermark is best used behind images, logos and large, bold headlines to avoid legibility issues.

GRAY MARK ON WHITE

Transparency: 7%

WHITE MARK ON GRAY

Transparency: 10-25%, depending on legibility

WHITE MARK ON ORANGE

Transparency: 10-25%, depending on legibility

WHITE MARK ON TEAL

Transparency: 15-30%, depending on legibility

WHITE MARK ON YELLOW

Transparency: 10-25%, depending on legibility

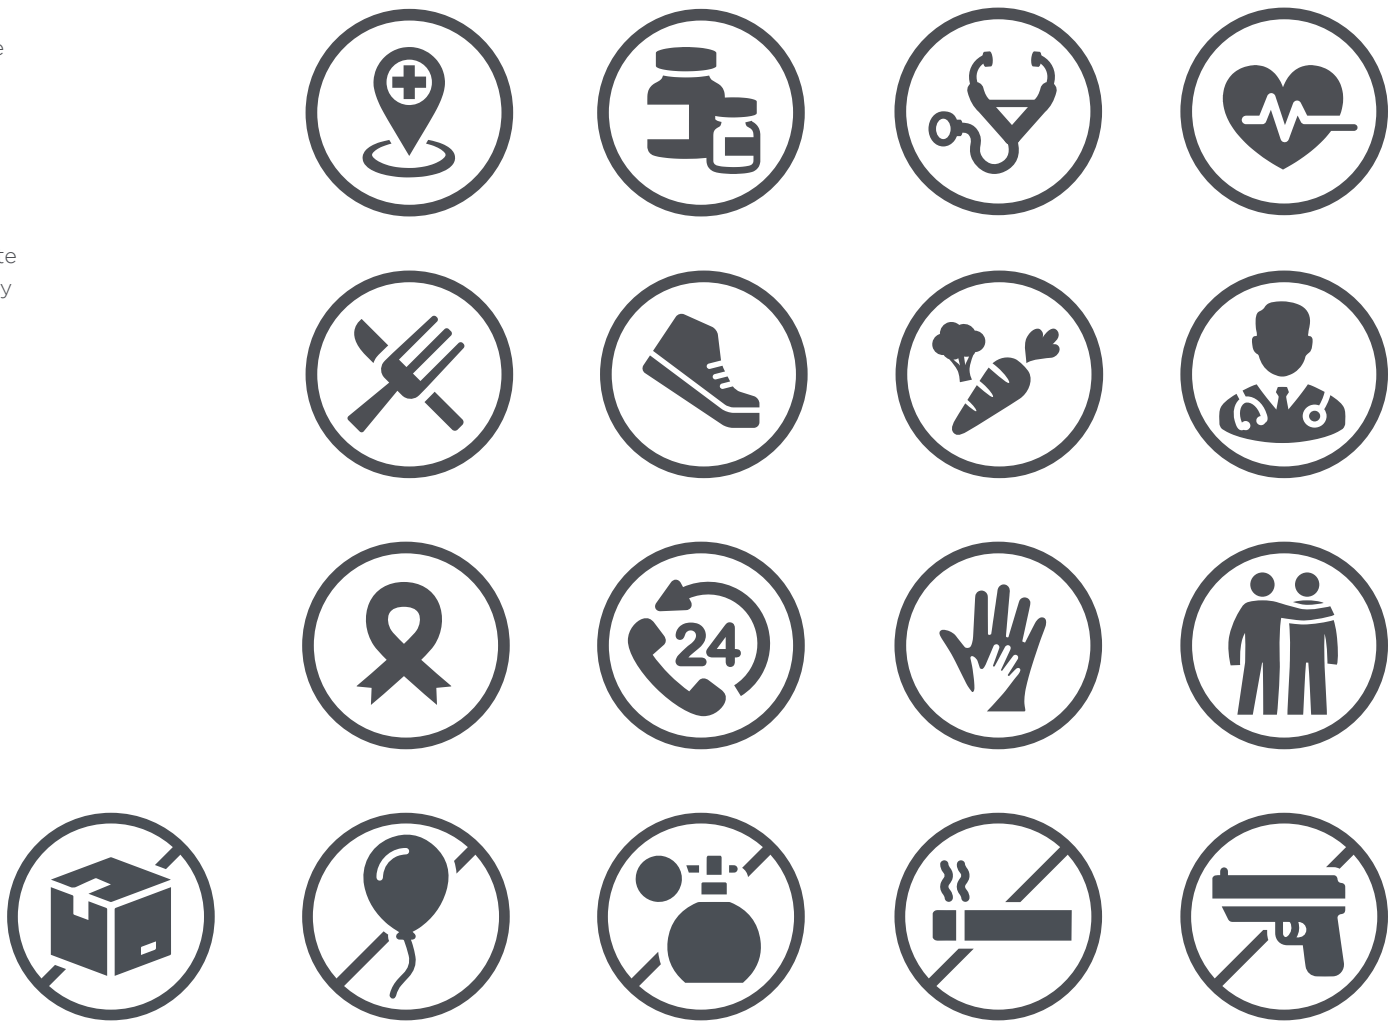

5 ICONOGRAPHY

Icons are a quick, fun communication tool to represent features, functionality or content. They're designed to be immediately recognizable and understandable. They can also be used to accent calls-to-action and other brief messaging.

RULES

Icons can either be gray on light backgrounds, white on dark backgrounds or use any of our four primary colors on background colors with the necessary contrast to stand out.

Icons are available upon Marketing request.

COLLATERAL

The background features a series of overlapping, semi-transparent gray rectangular blocks and lines. These elements are arranged in a way that creates a three-dimensional, architectural feel, with some blocks appearing to sit on top of others. The lines are sharp and intersect at various angles, contributing to the overall geometric aesthetic.

BROCHURE

Family Birth Center services

Labor, Delivery, Recovery and Postpartum (LDRP)

Our teams have a passion for mothers and newborns. We are committed to ensuring you and your growing family get off to the right start. We have OB/Gyn Hospitalists on staff 24 hours a day, and Family Medicine providers to care for your baby.

During your stay, you will labor, deliver and recover in the same room with the same care team for your entire stay. This team partners with you to understand your birth preferences and choices—from laboring practices to birthing positions to medication. Family members are encouraged to stay together in rooms, including rooming-in for newborns.

The North - Robbinsdale Hospital Family Birth Center team is excited to be your partner in welcoming your new baby to the world. Our highly experienced team partners with you to meet the desires you have for your birth process, while also ensuring a safe labor experience for you and your baby. We are here for you - night and day, every day of the week.

To learn more about the North - Robbinsdale Hospital Family Birth Center or to schedule a tour, call (763) 581-8370, or go to northmemorial.com

Lactation services

Using Evidence Based Practices, North - Robbinsdale Hospital assures the highest standards of nutrition for your baby and breastfeeding support for you. Our nurses have extensive training in infant feeding both breast and formula feeding.

Additional services:

- Donor milk is available as a supplemental feeding for baby during your stay.
- Ongoing breastfeeding support after discharge—either in person, virtually, or simply by phone.

Additional services

We partner with Minnesota Neonatal Physicians and Minnesota Neonatal Specialists, to ensure safe low risk newborn care for babies 36 weeks of gestation and up.

Welcoming the newest member of your family.

Layout standards

Icons are used to highlight call-outs.

Weight loss can be a difficult topic to address with patients. Or, perhaps you've had this conversation and now it's time to discuss bariatric surgery with them. In both scenarios, let us help. Watch our webinar about navigating the weight loss conversation with patients and how we can help should bariatric surgery be the next step. tiny.cc/NMHWeightLoss

If diet, fitness and weight management alone aren't enough, bariatric surgery could be an option for some patients.

Candidates are:

- Between the ages of 18 and 65.
- A male with a BMI less than 55 or a female with a BMI less than 60.
- Without:
 - Organ failure.
 - Significant cardiac or respiratory failure.
 - An organ transplant.
 - Significant problems ambulating.
- Not a candidate on a transplant list.

If you have customers who have health-related problems due to excess weight and they meet the criteria above, you may:

- Refer them in Epic via NMO Bariatric.
- Call the bariatric clinic at (763) 581-5355 to get them enrolled in our program.

Learn more about our bariatric and weight loss program and classes for potential patients at northmemorial.com

LETTERHEAD TEMPLATE

Firstname Lastname
Address 1
Address 2

Dear Firstname,

Text appears in Arial, 11 pt font. The paragraph spacing for the body of your letter (found under the Layout tab, under Spacing, then "Before:") is 12 pts.

Lorem ipsum dolor sit amet, malorum suscipit ea mea, pri cu affert ignota ponderum. Cum an graeco partiendo ullamcorper, mel gubergren conclusionemque et. Ut vim iusto dictas molestie, audiam euriipdis per ad. Ne vel nonumes elaboraret, ne offendit accusata percipitur duo. Eam eu unum posse, vis no mazim facete suscipiantur.

Error erant maiestatis no duo, iisque tritani no duo. Tota timeam dolorem ei vim, id has nullam inimicus. Cum ad malis sanctus gloriatur, ludico utamur legendos vel at, vix at recusabo tinoidunt.

Scripta ornatus probatus et per, eu quot utinam contentiones sit. Aequo nostrud suscipiantur mea eu, eos ut mucus disputando philosophia, has ut omnis sanctus. Cu quando omnium eam, duo labores docendi ex. Euismodi pertinax molestiae ea mei, his no tota nihil delicata. Nam maiestatis suscipiantur at. Tolle fastidi probatus id mea, quo ei eros elit nulla, ex pri nostro atomorum. Per diam nulla in, eu nec oratio delent, fabellas corruptit ullamcorper id qui.

Per erant aequo ad. Has vero oporteat oportere id. Facit omnium ex eum. Cu partem phaedrum eos, pri soluta everti ne.

Vel ei partem moderatus, ei justo eripuit officis quo, mea debitis praesent ex. Vel at case corruptit. Mel eu epicuri intellegam, iusto principes pri ei. Per tantas debitis an, in mel tamquam dissintias.

Sincerely,

7 EMAIL SIGNATURES

Email signature template – North Memorial Health standard

It's important that all email signatures are branded consistently. Pronoun designations are an optional signature element for team members to include if they wish. Indicate your preferred pronouns after your name. He/Him, She/Her, They/Them.

Please follow this template and do not add any other elements.

Example below is enlarged to show detail.

First Last Name, Credentials (pronouns)

Title or Department

Location <ie. North Memorial Health –
Maple Grove Hospital>

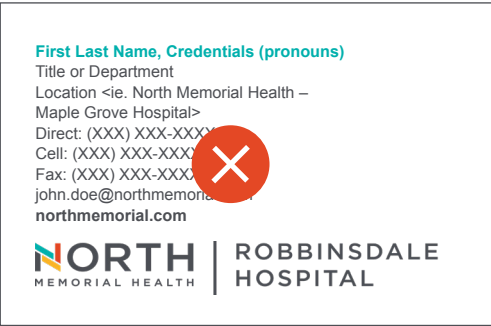

Direct: (XXX) XXX-XXXX

Cell: (XXX) XXX-XXXX

Fax: (XXX) XXX-XXXX

LOGO

System logo appears on all signatures — makes it clear we are all part of one, unified organization. Leave one line space before logo to keep it separate. Do not resize.

To create your new signature

Go to: File > Options > Mail > Create or modify signatures for messages. Click on signature.

1. Choose to either modify your current signature or create a new signature template. Use the template specs to the left to enter your new signature information.
2. Type in your contact information based on the template to the left.
3. Font: Highlight the text, right click, then choose "Font" to choose the brand approved fonts. See font selection noted in the left column. Select "OK" when done.
4. Colors: Highlight the name and credentials line, right click, then choose "Font" and then click on the "Font Color" drop down menu. You will need to choose "More Colors." In "color model," select RGB in the drop-down menu. Type the North Teal RGB Color number into the open field at the bottom. See color mix noted in the left column. Click "OK." Go through this step again with the rest of the text highlighted in order to change it to North Gray.

NOTE: You must change these colors using the appropriate RGB codes or they will not be represented correctly.

**INSERT
PICTURE
ICON**

5. After the URL line, press enter twice in order to create a line break before the logo. Navigate to the Marketing Development page on the Intranet to download and save the North Memorial Health logo for email signatures. Click the "insert picture" icon. Choose the North Memorial Health logo from where you saved it. The logo should appear where your cursor was on that second line. Use logo as-is, do not resize.
6. Save signature and set it to apply to all outbound messages.

WEARABLES

The background features several overlapping, semi-transparent gray geometric shapes. These include a large parallelogram on the right side, a vertical rectangle on the far right, and several other rectangular and trapezoidal shapes that create a layered, architectural effect. The overall aesthetic is modern and minimalist.

8 BADGES

Color coding

North Gray	All team members, including providers, volunteers, and others
Pink	Maternity team member
North Yellow	Contractor

Formatting

It is crucial that badges are consistently formatted for ease of use and readability.

Names to be standardized:

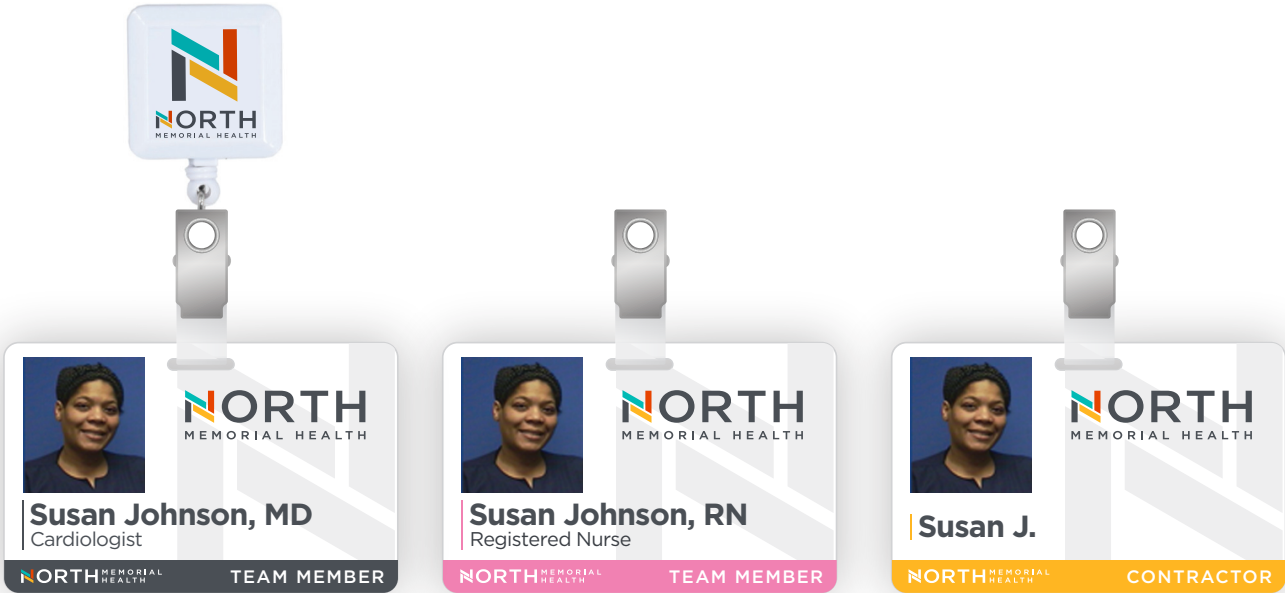

Supervisors and above	First and last name required
Providers with credentials	First and last name followed by highest level credential required <i>See approved credentials below.</i>
Below supervisor level	First name, last name initial

If a team member has more than one role or title, their clinical title should appear first, followed by their non-clinical title.

Highest level credential to be included for professional staff. Non-practicing professional staff does not require credentials.

Approved credentials to include:

- | | | |
|-------|---------|--------|
| • MD | • NP | • LGSW |
| • DO | • CRNA | • LADC |
| • PA | • CNS | • CNM |
| • DPM | • PsyD | • RN |
| • PhD | • LICSW | • LPN |

8 T-SHIRTS

Volunteer t-shirts

North Memorial Health volunteer t-shirts are available for you and your team to wear when participating in, sponsoring or hosting an event on behalf of North Memorial Health.

T-shirts are available in adult sizes S - XL.

To order

Contact Patty Johnson in the Marketing Department at Patty.Johnson@NorthMemorial.com

Team t-shirts

North Memorial Health team t-shirts are available for you to order and wear at team building events or in your free time outside of work. Note: These shirts should not be worn to events where you are volunteering on behalf of North Memorial Health.

Shirts are available in short or long sleeve in adult sizes S - 3XL or youth sizes XS - XL.

To order

Contact Max@littlepepperpromotions.com

8 USE OF SERVICE LINE/DEPARTMENT/PROGRAM NAME

Department representation on wearables and give-aways

We strongly urge departments to only use the primary logo (North Memorial Health logo) and to not include their service line/department/program name on items. However, if you must include your service line/department/program name on items, it must follow these standards.

- Masterbrand logo only to be used unless Marketing Department grants approval to other logo usage.
- Name should reflect the updated and approved service line/department/program name (see naming conventions in section 10)
- The service line/department/program name should not encroach or be near the master brand logo. It must appear in a different area.
- The service line/department/program name should appear in Gotham Book, all caps. Use the same color as the primary color in the corporate logo appearing on the piece (i.e. North Gray or White).

FORMATTING SEEN IN EXISTING UNIFORMS

T-shirt example:

YES: Corporate branding on upper left chest. Department name on upper right chest, on sleeve or on back

NO: Corporate branding on upper left chest. Department name on left chest under/beside/above corporate branding

Hot/cold pack give-away example:

YES: Corporate branding on front side. Department name on back side

NO: Corporate branding on front side. Department name on front side

8 PROMOTIONAL ITEMS

Please consult with the Marketing Department if you have any questions (see page 58).

North Memorial Health Marketing Department has a preferred promo vendor — Little Pepper Promotions. This vendor has access to current brand standards, logos, etc. so they are able to offer turn-key production. Promo items are managed by each team. To see options, get samples and to place an order contact **Max@littlepepperpromotions.com**

Before producing any promo item, Little Pepper Promotions will send a proof to North Memorial Health Marketing Department to ensure item and imprint are on brand.

FACILITY SIGNAGE

9 SIGNAGE

Urgent Care and Urgency Center

While the corporate logo is the preferred brand mark, signage for Urgent Care and Urgency Center locations requires attention-grabbing colors and formatting. For this reason, logos with red blocks and reversed text are available for signage only. Signage decisions and approvals are owned within the Marketing Department and through an approved vendor.

VERTICAL LOCK-UPS

HORIZONTAL LOCK-UPS

9 SIGNAGE

Robbinsdale Hospital

North Memorial Health has developed system-wide signage standards aligned to our brand.

Signage requests and changes should be run through the Marketing, Design and Construction teams.

9 SIGNAGE

Maple Grove Hospital
